Why Fluted Ceilings Are a Smart Choice

Fluted ceiling panels redefine elegance with sculpted grooves that create depth, dimension, and timeless sophistication. Designed to enhance acoustics and aesthetics, they bring a luxurious rhythm to every modern interior.

Enhanced Aesthetics

Soffit ceilings add depth and dimension, enhancing any room's look. They beautifully frame spaces and integrate lighting.

Smart Lighting Integration

They offer a hidden space for LED strips, spotlights, or cove lights, enabling layered designs without cluttering the ceiling.

Conceals Wiring & Ducts

Soffits are ideal for hiding unsightly electrical cables, AC ducts, and sprinkler systems — keeping your ceiling clean and uncluttered.

Improves Acoustic Control

When paired with the right materials, soffit ceilings can help absorb sound, reducing echo and creating a more peaceful indoor environment.

Customizable Design

From sleek modern lines to more decorative profiles, soffits can be tailored to suit any interior style — minimalistic, industrial, or luxury.

Adds Property Value

Well-designed soffit ceilings can increase the perceived value of your space, making it more appealing to potential buyers or tenants.

STYLE YOUR
CEILING

FLUTED CEILING PANELS

Light Wood
Look Panel
**With Contemporary
Grooves**

Design

A perfect reflection of the colour and grain of the wood.

**Water
Resistant**

A perfect reflection of the colour and grain of the wood.

Made in India

The Panels are designed and manufactured in India.

Conservation

It requires no maintenance, saving time and cost.

Lightness

Panels are lightweight and do not weigh down the structure

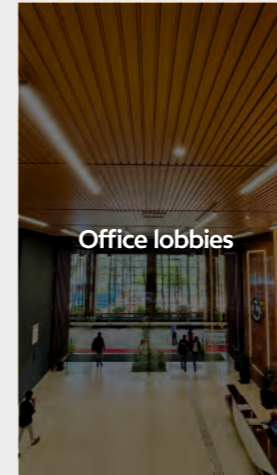

D E S I G N E D T O P E R F O R M

Precision Strength Visual Rhythm

Our Type A soffit panel features a tight rib spacing of 62.5mm, delivering a sleek and modern linear aesthetic. With a compact 408mm overall width, this profile is ideal for creating subtle visual texture while maintaining strong structural integrity

Key Features

- Crisp, narrow ribs for a refined, consistent look
- Ideal for compact areas and finer architectural detailing
- Provides excellent strength with a modern aesthetic
- Perfect for residential facades, ceilings, and internal applications

Where to Use Our Panels

Our soffit panels are designed for both style and utility, making them perfect for a wide range of residential, commercial, and outdoor applications. Whether you're enhancing aesthetics or covering structural elements, there's a soffit solution for every space.
